

MMA 1 and MMA 3

Traditional remote for amperage adjustment

The “Dog bone” style remote control MMA 1 and MMA 3 offer stepless adjustment of the weld current. The adjustment knob can be accessed from both sides making the remote control ideal for both left and right hand operation. The minimum current, as a percentage of the set weld current, can be adjusted in the power source allowing for both Fine and Coarse setting of the current. For more information please refer the power source user manual.
